

LINC PERSONALITY PROFILER

PARTNER CHECK

With the aid of PARTNER CHECK, the personality profiles of two individuals can be clearly compared with one another. The results of PARTNER CHECK provide an ideal basis for analysis and coaching discussions, e.g. in the context of conflict mediation or couple counseling. The PARTNER CHECK is available in the following two versions:

Business version

e.g. for the consultation of management pairs

Consisting of...

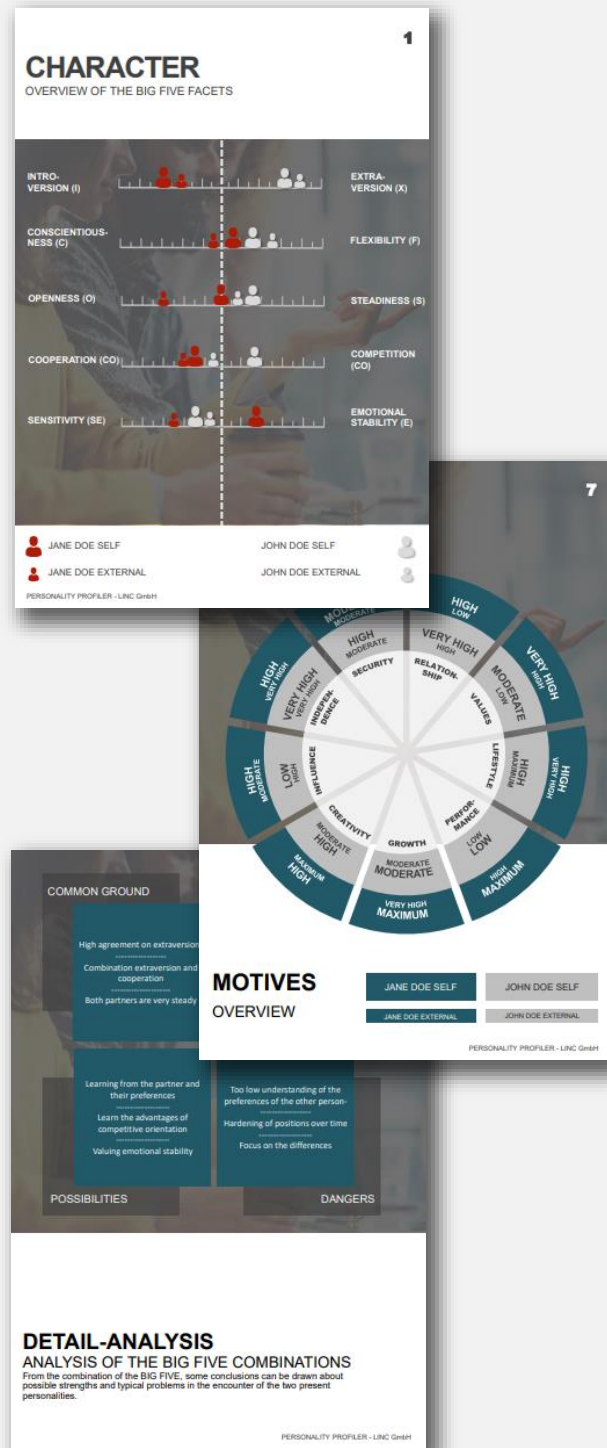

- Self-assessment and (optional) external assessment of character (Big Five incl. facets), motives and skills
- Vivid graphs and charts
- Additional detailed analysis of concise similarities, discrepancies, opportunities and risks of the two personality profiles

Couple version

e.g. for couple counselling

Consisting of...

- Self-assessment and (optional) external assessment of character (Big Five incl. facets), motives and skills
- Extra: Analysis of attachment styles, which arise from the given individuals personality and represent recurring behavior patterns in the context of close relationships

OVERVIEW OF KEY ASPECTS:

Languages: German

External assessment: optional

Duration of evaluation: within 24 hours after both assessments have been completed

Number of participants: suitable for two people
